**TOUCHSTONE ENERGY HOME PROGRAM**

**Purpose**

In an effort to improve new residential home energy performance, Inter-County Energy Cooperative has designed the Touchstone Energy Home Program. This program provides guidance during the building process to guarantee a home that is  $\geq$  25-30% more efficient than the Kentucky standard built home. The standard built new home in rural Kentucky typically receives a 105 on the Home Energy Rating System ("HERS") Index.

T  
T

**Availability**

This program is available to home owners or members served by Inter-County Energy Cooperative.

**Eligibility**

To qualify as a Touchstone Energy Home under Inter-County Energy Cooperative's program, the participating single-family home must be located in the service territory of Inter-County Energy Cooperative and must meet the program guidelines following one of the two available paths of approval. Multi-family dwellings pre-approved by East Kentucky Power Cooperative, Inc. may be eligible.

T

Prescriptive Path:

- Home must meet each efficiency value as prescribed by Inter-County Energy Cooperative.
- Home must receive pre-drywall inspection and complete Inter-County Energy Cooperative's pre-drywall checklist (contact the Energy Advisor at Inter-County Energy Cooperative for a copy of the checklist).
- Home must receive a final inspection, pass a whole house air leakage test and duct leakage test.
- Primary source of heat must be an Air Source Heat Pump  $\geq$  current ENERGY STAR® specification for Seasonal Energy Efficiency Ratio "SEER" and Heating Season Performance Factor "HSPF" or Geothermal.
- Water heater must be an electric storage tank water heater that is  $\geq$  current Energy and Water conservation standards established by the Federal Department of Energy "DOE".

(continued)

Performance Path:

- Home must receive a HERS Index score of  $\leq 75$  (At least 30% more efficient than the KY standard built home).
- Home must receive pre-drywall inspection and complete Inter-County Energy Cooperative's pre-drywall checklist. (contact the Energy Advisor at Inter-County Energy Cooperative for a copy of the checklist).
- Home must receive a final inspection, pass a whole house air leakage test, and duct leakage test.
- Primary source of heat must be an Air Source Heat Pump > current Energy and Water conservation standard established by the Federal DOE or Geothermal.
- Home must pass current energy code requirements established in the KY Residential Code.
- Water Heater must be an electric storage tank water heater that is  $\geq$  current Energy and Water conservation standard established by the Federal DOE.

**Incentive** - Inter-County Energy Cooperative will provide an incentive of \$750 to home owner or member that build their new home to meet the requirements of either the Prescriptive or Performance Paths as listed above.

**Term**

The program is an ongoing program.

**ENERGY STAR® Manufactured Home Program**

N

**Purpose**

Inter-County Energy Cooperative’s ENERGY STAR® Manufactured Home Program (“ESMH”) is designed to ensure that members of Inter-County Energy Cooperative purchase an energy efficient manufactured home. Inter-County Energy will accomplish this by providing the purchaser of a manufactured home with an incentive to purchase and install a new ENERGY STAR® certified manufactured home.

**Availability**

This program is available to residential members served by Inter-County Energy Cooperative.

**Eligibility**

To be eligible for this ESMH incentive, new manufactured homes must meet the following criteria:

- United States Environmental Protection Agency (“EPA”) and Systems Building Research Alliance (“SBRA”) guidelines as an ENERGY STAR® Manufactured Home.
- Primary source of heat must be a heat pump.
- Home must be all electric.
- Home must be installed by the member on lines served by Inter-County Energy Cooperative.
- Participants in the ENERGY STAR® Manufactured Home Program are not eligible for participation in the Heat Pump Retrofit Program.

**Payments**

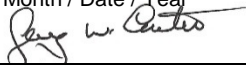

After new home installation and after receiving certification as an ENERGY STAR® manufactured home, Inter-County Energy will tender a \$1,150 incentive payment to the member. The incentive is intended to help cover the cost of upgrading the home from the standard United States Department of Housing and Urban Development (HUD) construction requirements to the SBRA and EPA ENERGY STAR® manufactured home construction requirements.

**Term**

This program is an ongoing program.

**BUTTON UP WEATHERIZATION PROGRAM**

**Purpose**

The Button-Up Weatherization Program offers an incentive for reducing the heat loss of a home. The retail member may qualify for this incentive by improving attic insulation and reducing the air leakage of their home.

**Availability**

This program is available to home owners or members served by Inter-County Energy Cooperative.

**Eligibility**

This program is targeted at older single-family, multi-family or manufactured dwellings. Eligibility requirements are:

- Home must be 2 years old or older to qualify for the incentive.
- Primary source of heat must be electricity.

The Button Up incentive will promote the reduction of energy usage through air sealing on the part of the home owner or member. Typical air sealing could include caulking, improved weather stripping, sealing attic accesses, etc.

To receive this incentive, either an EKPC approved contractor or Inter-County Energy Cooperative representative must perform a "pre" and "post" blower door test to measure actual Btuh reduced.

The attic insulation portion of the Button Up incentive will promote the reduction of energy usage on the part of the retail members. Heat loss calculation of Btuh reduced will be made by using either the Manual J 8<sup>th</sup> Edition or through other methods approved by EKPC. Heat loss calculation in Btuh are based on the winter design temperature. In order to receive an incentive for attic insulation, an air seal must be completed.

**HEAT PUMP RETROFIT PROGRAM**

**Purpose**

The Heat Pump Retrofit Program provides incentives for home owners or members to replace their existing resistance heat source with a heat pump.

**Availability**

This program is available to home owners or members in all service territory served by Inter-County Energy Cooperative.

**Eligibility**

This program is targeted to home owners or members who currently heat their home with a resistance heat source. This program is targeted to site-built homes, manufactured homes and multi-family dwellings. Eligibility requirements are:

- Incentive only applies when the home owner's or member's primary source of heat is an electric resistance heat furnace, ceiling cable heat, baseboard heat or electric thermal storage.
- Existing heat source must be at least 2 years old.
- New manufactured homes are eligible for the incentive.
- Two (2) maximum incentive payments per location, per lifetime for centrally ducted systems.
- Ducted and Ductless mini-splits applying for the incentive will be incentivized at a rate of \$250 per indoor head unit up to a maximum of three head units per location, per lifetime.
- Participants in the Heat Pump Retrofit Program are not eligible for participation in the ENERGY STAR® Manufactured Home Program.

**Incentives**

Home owners or members replacing their existing resistance heat source with a heat pump will qualify for the following incentive based on the equipment type:

**DIRECT LOAD CONTROL PROGRAM - RESIDENTIAL**

**Purpose**

The Direct Load Control Program will encourage the reduction in growth of peak demand, enabling East Kentucky Power Cooperative ("EKPC") to utilize its system more efficiently, manage market purchases, and defer the construction of new generation.

**Availability**

The Direct Load Control Program is available to residential members in the service territories of Inter-County Energy Cooperative and will include the control of existing water heaters, existing and new air conditioners and heat pumps. (T)

Availability may be denied where, in the judgment of Inter-County Energy Cooperative, installation of the load control equipment is impractical. (T)

**Eligibility**

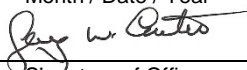

To qualify for this Program, the new participant must be located in the service territory of Inter-County Energy Cooperative and have: (T)

- central air conditioning or heat pump units with single-stage compressors (T)

The above appliances may be electrically cycled or interrupted in accordance with the rules of this Tariff. The participant may either own or rent the residence where the qualifying appliances are located. The residence may be either a single-family structure or a multi-family apartment facility. The participant is responsible for obtaining the permission of the owner of the rented residence to participate in the load control program. Inter-County Energy Cooperative may require that a rental property agreement be executed between Inter-County Energy Cooperative and the owner of the rented residence.

**Program Incentives**

Inter-County Energy Cooperative will provide an incentive to the participants in this program for the following appliances.

Water Heaters. Inter-County Energy Cooperative will credit the residential power bill of the participant \$10.00 per water heater annually. The existing participant will receive this credit regardless of whether the water heater is actually controlled. (T)

Air Conditioners and Heat Pumps. Inter-County Energy Cooperative will provide an incentive to the participants in this program. The participant may select one of two alternatives. The participant will receive one of these incentives regardless of whether the air conditioner or heat pump is actually controlled during any program month.

Alternative One. For each direct load control switch, Inter-County Energy Cooperative will credit the residential power bill of the participant \$20.00 annually. (T)

Alternative Two. Inter-County Energy Cooperative will credit the residential power bill of the participant \$20.00 annually per qualifying Wi-Fi enabled thermostat provided by the member that controls an air conditioner or heat pump. Inter-County Energy Cooperative will provide a rebate up to \$100 to offset the member's cost to have the thermostat installed by the member's own heating and air-conditioning contractor. The member must have a fixed location, reliable internet for communication. (T)

When the qualifying appliances are located in rental residences, program incentives will be paid to the participant, regardless of whether the participant owns or rents the residence where the qualifying appliances are located. Nothing contained in this tariff will prohibit a further disposition of the program incentive between the participant and the owner of a rented residence

EKPC will cycle the water heaters only during the hours listed below.

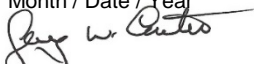

<u>Months</u>	<u>Hours Applicable for Demand Billing - EPT</u>
October through April	6:00 a.m. to 12:00 noon 4:00 p.m. to 10:00 p.m.
May through September	10:00 a.m. to 10:00 p.m.

**Terms and Conditions**

1. Prior to the installation of load control devices, Inter-County Energy Cooperative may inspect the participant's electrical equipment to insure good repair and working condition, but Inter-County Energy Cooperative shall not be responsible for the repair or maintenance of the electrical equipment.
2. EKPC, on behalf of Inter-County Energy Cooperative, will install, in some cases, own, and maintain the load management devices controlling the participant's air conditioner or heat pump. The participant must allow Inter-County Energy Cooperative, or their representative, reasonable access to install, maintain, inspect, test and remove load control devices. Inability of Inter-County Energy Cooperative to gain access to the load management device to perform any of the above activities for a period exceeding 30 days may, at Inter-County Energy Cooperative's option, result in discontinuance of credits under this tariff until such time as Inter-County Energy Cooperative is able to gain the required access.
